REWS | PRESS RELEASE

Households eligible for up to €500 in Solar Water Heater Maintenance Grant

Applications for the Solar Water Heater Maintenance Grant will open on the 9th November 2026. This support scheme is available to those beneficiaries who installed a solar water heating system and received the grant under the 2021 Solar Water Heater Scheme which was launched by means of **Government Notice 539**.

In accordance with the scheme's terms and conditions, eligible beneficiaries may now apply for an additional grant of up to €500 to cover maintenance costs associated with their solar water heating system. To qualify, at least five years must have passed since the date on which the original grant payment was received. As part of the criteria required, applicants must provide a receipt issued by the supplier as proof of the maintenance expenses incurred.

Applications must be submitted exclusively online through the REWS website. The application process is fully digital, allowing beneficiaries to complete the online application form and upload all necessary supporting documents directly through the platform. All applications will be assessed in accordance with the terms and conditions of the 2021 Solar Water Heater Scheme.

Further information, including access to the online application form and all the required criteria, will be made available on the REWS website (www.rews.org.mt) from the 9th November 2026.

REWS | STQARRIJA GĦALL-ISTAMPA

Beneficjarji eligibbli għal għotja sa €500 għall-manutenzjoni ta' Solar Water Heaters

Applikazzjonijiet għall-għotja għall-manutenzjoni tas-solar water heaters se jiftħu fid-9 ta' Novembru 2026. Din l-għotja hija disponibbli għal dawk il-beneficjarji li installaw sistema ta' solar water heater u rċevew għotja taħt l-Iskema tas-Solar Water Heaters tal-2021, li kienet tnediet permezz tal-Avviż tal-Gvern Nru 539.

Skont it-termini u l-kundizzjonijiet tal-iskema, il-beneficjarji eligibbli jistgħu issa japplikaw għal għotja addizzjonali sa massimu ta' €500 biex tkopri l-ispejjeż tal-manutenzjoni tas-sistema tagħhom. Sabiex jikkwalifikaw għal din l-għotja, iridu jkunu għaddew mill-inqas ħames snin mid-data li fiha rċevew il-ħlas tal-għotja oriġinali. Bħala parti mill-kriterji tal-iskema, l-applikanti jridu jippreżentaw irċevuta maħruġa mill-fornitur bħala prova tal-ispejjeż tal-manutenzjoni li jkunu saru.

Il-proċess tal-applikazzjoni huwa kompletament diġitali, u jippermetti lill-beneficjarji jimlew il-formola online u jtellgħu d-dokumenti kollha meħtieġa direttament fuq il-pjattaforma. L-applikazzjonijiet kollha se jiġu evalwati skont it-termini u l-kundizzjonijiet tal-Iskema tas-Solar Water Heaters tal-2021.

Aktar informazzjoni, inkluż aċċess għall-formola tal-applikazzjoni u l-kriterji kollha meħtieġa, se tkun disponibbli fuq is-sit elettroniku tar-REWS (www.rews.org.mt) mid-9 ta' Novembru 2026.
